Leader of global Information Technology and Security function, including application development, operations, telecommunications, technical support, and information security initiatives. Offering expertise in leading teams in diverse and challenging technical architectures and providing business solutions. My leadership skills and adaptability allow me to react rapidly to changes in an organization to provide enterprise class, cross functional solutions.

EXPERIENCE

JUNE 2019 – PRESENT

VICE PRESIDENT INFORMATION TECHNOLOGY & SECURITY

CHAMPION INTERNATIONAL MOVING

Leader of the management team for Software Development, Technology Support, and Security Operations. Direct report to the President. Partnered with stakeholders from several business lines to define and implement various technology strategies to meet organization's strategic imperatives.

- Created the Cyber-Security direction for short & long-range security and compliance goals, defining security strategies, metrics, reporting mechanisms, and services for maturing via continual program improvements
- Developed and implemented the Information Security Management System, which lead to Soc 2 Type II compliance and ISO 27001:2013 certification
- Develop policy and acceptable use guidelines along with audit committee and board presentations, as well as communication and awareness across the entire company
- Created a culture of transparency, collaboration, accountability, and commitment to excellence, including an enablement mentality across the Cyber-Security team
- Participate in quarterly executive level reviews with stakeholders from: Legal, Privacy, Enterprise Risk Management, Compliance and Business Lines on strategic planning to incident status reporting
- Participate in quarterly executive level reviews with parent company, Atlas World Group

JUNE 2016 – JUNE 2019

DIRECTOR OF OPERATIONS MANAGEMENT

CHAMPION INTERNATIONAL MOVING

Improved the organization and oversight of the daily operations of Champion and targeted specific areas which lead to increased operational efficiency. Monitored revenue margins and worker productivity, as well as implemented new directives for growth. Set guidelines for personnel evaluations, recruitment, and advancement. Continued in a leadership capacity for the information technology department.

FEBRUARY 2011 – DECEMBER 2015

DIRECTOR OF INFORMATION TECHNOLOGY

CHAMPION INTERNATIONAL MOVING

Technical and talent manager for IT systems and staff. Leadership role, Project management planning and execution, strategic planning and recommendations, procurement, incident remediation, budgeting, fiscal oversight, policy and procedures, vendor management and daily day-to-day operations.

MARCH 2002 – FEBRUARY 2011

INFORMATION TECHNOLOGY MANAGER

CHAMPION INTERNATIONAL MOVING

Created and administered the overall policies and goals for the information technology department.

Analyzed the cross departmental needs and determined ways to meet business objectives by modifying existing or developing new information processing systems.
